## TEACHERS RESPONSIBILITIES

- ✓ Ensure thorough planning and successful execution of student teaching in both classroom and clinical settings.
- ✓ Offer students guidance on delivering patient care through nursing practices.
- ✓ Provide students with guidance and support to ensure they fulfill their clinical requirements in a timely manner.
- ✓ Provide guidance and counseling support to students.
- ✓ Evaluate students' performances based on the expected standards.
- ✓ Keep records and reports concerning students' teaching and learning experiences in both the classroom and clinical environments.
- ✓ Verify the completion of procedures and logbooks every three months, and keep a record of these checks.
- ✓ Report any significant issues related to students through the class advisers and the principal.
- ✓ Conduct at least two supplementary tests for students who have failed. Those who pass the supplementary test will receive only 50% of the marks, regardless of their total score. For students who miss the test due to sick leave or special leave, administer an equally competent test and award full scores. It's not necessary to schedule the test along with the students writing the supplementary, aiming to discourage students from taking sick leave to avoid tests.
